

The undersigned, Mr/Ms. \_\_\_\_\_ on behalf of \_\_\_\_\_  
VAT registration number \_\_\_\_\_ DECLARE:

Our support for the initiative of the Spanish Federation of Associations devoted to Helping Attention Deficiency and Hyperactivity (FEEAADAH) in its application to the World Health Organization for the declaration of an ADHD World Awareness Day.

The entity I represent shares the view that the establishment of such a day would be an effective means of raising awareness throughout our society of the need to provide appropriate health, educational, social and labor support to individuals suffering from Attention Deficit Hyperactivity Disorder.

Likewise, the declaration of such a day is an expression of society's recognition of the difficulties and obstacles confronting individuals suffering from Attention Deficit Hyperactivity Disorder and their families throughout their lives. It is also offers a channel to proclaim highly deserved understanding and solidarity for the daily efforts life imposes on individuals, and their families, affected by a condition which can be treated properly not only through their own active participation but also through that of society as a whole and of public authorities.

We therefore urge all those working in educational, health, social and labor spheres to declare their support for an ADHD World Awareness Day.
